WORKSHOPS AND PANELS

Workshop Session 1

Developing Your Environmental Club

R. 138

Alexa Gatti, Lafayette College
Justinian Innit, Envolved Productions
Nicole Kroedyker, SPARC

Successful environmental clubs are a lot of work! Meet with student environmental leaders to discuss marketing, running campaigns, leading meetings, and more. This workshop is a follow-up to the "Developing Your Environmental Club" panel held in the morning, and will focus on helping students brainstorm solutions to their specific environmental club issues.

GreenAllies: Creating Partnerships

R. 257

Ken Hamilton, GreenAllies

GreenAllies is a non-profit with the mission to "empower and support students to innovate and lead environmental sustainability efforts" Discuss how this organization can help you and your school organization become more effective and powerful through GreenAllies services and resources. Find out how you can become part of this growing student organization and its innovative sustainability initiatives.

Engaging Sustainability in Lancaster

Druker Commons

Chris Caldwell, Common Wheel
Fritz Schroeder, Lancaster Conservancy

Jessica Mailhot/Mary Goss, Central Market
Patricia Haverstick, Lemon Street Market

How can students get involved in local sustainability efforts? Find out about the Lancaster area businesses working on sustainability initiatives and discuss possible partnerships with college students.

Waste on Campus

R. 142

Tom Simpson, Franklin & Marshall College
Nic Auwaerter, Franklin & Marshall College

Waste issues are always in the forefront on college campuses. Efforts to improve recycling, composting and waste reduction can be difficult. Engage with this panel of experts and discuss ways to improve your campus waste management issues.

WORKSHOPS AND PANELS

Workshop Session 2

Waste on F&M's Campus

R. 142

Tom Simpson, Franklin & Marshall
Nic Auwaerter, Franklin & Marshall

A panel of campus and community representatives who will discuss the issues surrounding waste at F&M. This powerful panel will provide insight into the realities of waste management and investigate possible solutions to some of the problems. F&M specific, but applicable to any campus.

Coordinating Trips and Travel

R. 257

Amanda Crawford-Staub, The Green Program David Radcliff, New Community Project
Dr. Karen Rice, Millersville University Dr. Erik Lindquist, Messiah College

Have you ever wanted to take your environmental club on an amazing trip? Whether you want to go to Costa Rica or Yellowstone, come hear from panelists with lots of experience leading student trips for ideas and a discussion of trip logistics.

Exciting Environmental Careers

R. 138

Alyssa Doll, Reliance Environmental Inc
Jasen Book, Liberty Environmental Engineering
Justinian Innit, Envolved Productions

Even after graduation, there are ways to stay involved in environmental work. Careers that involve the environment can be exciting and fulfilling. Hear from an environmental scientist, filmmaker, and engineer as they share how they have made a career out of sustainability and how they reached their position.

Transforming Ideas into Action

Druker Commons

Briana Krewson, Franklin & Marshall
Sarah Dawson, The Wohlsen Center
Rachel Atcheson, Humane League

Have an idea that you want to implement and need help getting it started? Hear how to accomplish your goals and receive advice about how to turn your idea into a successful campus program.

WORKSHOPS AND PANELS

Workshop Session 3

International Sustainability

R. 257

Elvis Sulozeqi, Albania
Madina Madraimova, Kazakhstan

Not all countries address sustainability in the same way! Hear from students at LCC International University in Klaipėda, Lithuania, as they discuss their experiences with sustainability in their own culture. Students will share some of the problems their nation's environment faces, and some of the different cultural approaches to sustainability.

Light the Fire

R. 142

David Radcliff, New Community Project

Join David Radcliff, director of the inspiring non-profit New Community Project, as he shares how to get others to think about, care about, and do something about the mess we're making of the planet.

Responsible Food

R. 138

Rachel Atcheson, The Humane League
Patricia Haverstick, Lemon Street Market

Do you know where your food comes from? Do you want to see the food system at your school become more sustainable? Discuss with our experts how to create a more sustainable food system on campus.

Urban vs Rural Campuses

Druker Commons

Nathan Ross, Temple University

Schools in an urban setting and schools in rural areas each have unique set of circumstances that provide different challenges as well as many opportunities for campus organizations. This panel discussion will focus on these differences and try to promote ideas that will be successful for both locations.
